

## CenterFire™ Laser and Light for Beretta Pico Pistol Available Summer, 2015 through Beretta Authorized Distributors

Distinguished by its sleek, low profile design, the Beretta Pico is an ultra-thin, compact carry pistol. Complementing the concealment of the Pico, the Controlled Activation® LaserMax CenterFire laser and light seamlessly blend with the pistol housing for comfortable carry and added confidence. The CenterFire laser dramatically improves shooting performance by keeping you on target, while the bright white CenterFire light helps to quickly identify threats.

**RED LASER**

SKU: JEPPZ  
PRICE: \$189

**LIGHT**
