

## 10/22

Laser for Ruger® 10/22 Rifle

### Features

- Red laser with constant beam.
- Custom designed to fit the Ruger 10/22 rifle with a barrel band.
- Attaches by swapping out your existing barrel band.
- Provides two built-in Picatinny rails for other accessories.
- Easily adjusts for windage and elevation.
- Shooting distance between 25 and 100 yards depending on lighting conditions.

This custom designed 10/22 laser seamlessly integrates on your 10/22 rifle to help all shooters, novice to experts, improve their accuracy. Shoot with more confidence in all lighting conditions whether you are target shooting, learning, or having fun while plinking.

In addition to enabling more precise sighting, the LaserMax 10/22 laser integrates two Picatinny rail surfaces for attachment of additional accessories, such as a tactical light or infrared laser.
