

## LaserMax Corporate Profile 2015

LaserMax, Inc. is a privately held company headquartered in Rochester, New York. Best known for the design and manufacture of premium firearm laser sighting solutions for military, law enforcement and commercial markets, LaserMax also delivers premium laser products and optical systems for the semiconductor, aerospace, biomedical and telecommunications industries.

Since the company's first laser inventions in 1989, LaserMax has grown to become a global leader in hardened and miniaturized laser systems, developing significant intellectual property, resulting in numerous primary patents in laser technology. During 2014, LaserMax celebrated both its 25th year and the shipment of its millionth laser.

As an OEM supplier to Fortune 500 companies, and a military equipment developer through active defense contracts, LaserMax specializes in packaging and ruggedizing laser systems for use in adverse environments. Typical ruggedness testing includes exposure to harsh conditions such as:

- Intense electromagnetic fields
- Extreme temperatures
- High accelerations
- Deep water immersion, salt water spray, blowing sand
- Shock and weapons recoil, heavy impacts, drops, etc.

LaserMax has set the bar for exceptional laser performance and reliability within a diverse range of environments including space platforms and weapons systems. The many types of lasers ruggedized by LaserMax include:

- Quantum cascade lasers
- Solid state lasers
- Diode lasers
- Gas lasers

LaserMax is an ISO 9001:2008 certified and WOSB 8(m) certified Women-Owned Small Business and has been recognized by Inc. 500|5000 as one of the fastest growing companies in the U.S.
