

For Immediate Release

LaserMax Now Shipping Green CenterFire Laser Sights for Ruger

August 2, 2013 (Rochester, NY) – LaserMax® is pleased to announce that shipments of the eagerly-awaited green CenterFire™ laser sight for Ruger® LC9™ and LC380™ pistols have commenced. Highly visible across the broadest range of lighting conditions, the CF-LC9-G joins the CF-LC9, LaserMax's previously-released red CenterFire laser, which is packaged and sold by Sturm, Ruger & Company. Now customers have the option of the world's finest in red or green laser sighting without compromising the ergonomics, light weight or winning aesthetics of this popular American firearm.

Like all CenterFire lasers, the CF-LC9-G offers seamless integration with the front portion of the pistol frame, placing the emission point of the laser beam immediately under the bore for the highest accuracy. User installed in minutes, the CenterFire offers the most compact and robust laser sighting solution available today. With a suggested retail price of just \$249, there is simply no better green laser solution for the Ruger LC9 or LC380.

Complete information on LaserMax product offerings is available at lasermax.com. A detailed product catalog may also be downloaded online or requested by mail from LaserMax, 3495 Winton Place, Rochester, NY 14623.

Now in its 25th year, LaserMax is the market leading producer of premium laser systems.
